Dear Parents and Carers,

Please find attached the final version of Ofsted's inspection report from the 10th and 11th October.

The inspection team talked very positively about the actions we are currently taking and the changes we have brought in this academic year.

We recognise there is more to do on our improvement journey to ensure Weyford is the best school in our town.

Since September:

- We have reorganised the special educational needs team to provide better support for the most vulnerable pupils in our school.
- We have restructured the leadership team to better support rapid improvements.
- We have revised our school curriculum, introducing changes to all subject areas bringing it in line with the latest thinking and national expectations.
- We have increased opportunities in sport and music as well as through increased after school activities.
- We have introduced new positive yet robust behaviour management systems and are working with parents to ensure that all pupils behave in a way that enables them and those around them to be happy and successful in school.

I want to be as clear with you as I am with everyone else that there is still work to do. However, I want to reassure you that we are getting on with this journey of improvement at pace. Change is always a challenge. However, the staff at Weyford are hugely committed to the success of our school.

It is reassuring to receive strong positive confirmation from the inspection team on the actions we have taken and the direction of travel. I am delighted that we have already achieved a good grading in two areas.

Proud to be part of the **UNIVERSITY OF CHICHESTER ACADEMY TRUST**

There will be opportunity to look at how we are organising our curriculum including looking at our Do, Know and Remember (DKR) sheets as well as a chance to discuss this report next week. Please sign up using the form below or contact the school office.

Thank you for all your support.

Kind regards,

Chris James
